1984 *General Dentistry* Index

AUTHOR INDEX

Note: Numerals in parentheses refer to issue numbers; numerals following a colon refer to page numbers.

Atkinson, WB; Bates, RE Jr: Tissue desiccation and oral microlesions. (3):190-191
Atkinson, WB see **Bates, RE Jr**
Bach, DE see **Judah, MW**
Bander, TS: Return dental care to the dentist (Letter). (2):86,90
Barkmeier, WW see **Cooley, RL**
Barouch, E; Gelb, M; Hirsch, SM; Kaim, J: Patient-applied ZOE: A clinical test. (2):128-129
Barrett, ED: Andragogy: Taking an adult approach to dental continuing education. (2):134-136
Bates, RE Jr; Lewis, JE; Atkinson, WB: Single-appointment occlusal splints. (1):44-46
Bates, RE Jr see **Atkinson, WB**
Bebeau, MJ; Kress, GC: Selecting continuing education courses: A checklist. (2):97-102
Bebermeyer, RD: Aseptic procedures for the dental office. (4):312-315
Belian, AG: Amalgam vs. composites (Letter). (6):478-479
Berkowitz, S: Keeping quality in orthodontics (Letter). (2):86
Bhaskar, SN: Periodontal ad campaign (Letter). (5):370
Bhat, M see **Clark, CA**
Biesterfeld, RC see **Taintor, JF**
Blank, LW see **Parker, MW**
Blitzer, MH see **Pollack, BF**
Bolouri, AL: Relining distal extension partial dentures. (4):334-336
Bomberg, TJ; Ernst, NS: Physical assessment of the elderly patient. (3):198-200
Breton, RW see **Parker, MW**
Brooks, JK: Periapical pathology mimicking a dentigerous cyst. (6):497
Buchanan, WT: Periodontal splinting: Two conservative procedures. (6):486-488
Burns, J see **Svirsky, J**
Carey, J: GPs and orthodontics (Letter). (6):479
Chiodo, GT; Rosenstein, DI: Consultation between dentists and physicians. (1):19-22
Cinotti, WR see **Samant, A**
Clark, CA; Bhat, M; Schubot, DB: Selecting a practice location: A study of recent graduates. (1):26-30
Cline, SJ see **Shugars, DA**
Coffey, SL see **deShazer, DO**
Collins, JF; Gingold, J; Stanley, H; Simring, M: Reducing dentinal hypersensitivity with strontium chloride and potassium nitrate. (1):40-43
Cooley, RL; Barkmeier, WW: Evaluation of devices for storing amalgam scrap. (2):118-120
Cooley, RL; Lubow, RM: Mercury vapor leakage from disposable capsules. (3):218-221
Cresswell, JJ: Adult approach to CDE (Letter). (4):290
Crim, GA; Swartz, ML; Phillips, RW: An evaluation of cavosurface design and microleakage. (1):56-58
deShazer, DO; Coffey, SL: The periodontal ligament injection technique. (4):308-310
Dodd, CS; Vernino, D: Geriatric nutrition for edentulous and dentulous patients. (2):103-104
Dodes, JE: Amalgam vs. composites (Letter). (6):478
Drago, CJ; Parel, S: Overdenture treatment of an adult cleft-palate patient. (5):438-440
Eames, WB: Cement escapeways (Letter). (3):182
Ernst, NS see **Bomberg, TJ**
Fishburne, C Jr see **Shugars, DA**
Foulke, CN see **Miller, CS**
Galvin, WC see **O'Hara, JW Jr**
Gardner, FM: Alterations in tooth preparations for surveyed crowns. (6):498-500
Gelb, M see **Barouch, E**
Gingold, J see **Collins, JF**
Gjebre, K: Licensure exams (Letter). (1):6
Greenstein, G: The Keyes technique: A perspective. (3):232-234
Grover, PS; Lorton, L: Forensic value of artificially defaced crowns. (4):306-307
Impaction of first molars: Two case reports. (1):32-33
The incidence of supernumerary teeth. (3):224-227
Harmon, FJ see **Kaugars, GE**
Hayes, SM: Tic douloureux: Report of successful treatment. (5):441-442
Hein, JW: Dentistry's future: Broadening our focus to meet the research challenge. (1):23-25
Hellerman, MB; Sadowsky, D: Capillary hemangioma: Report of a case. (4):327-328
Heymann, HO: Resin-retained bridges: The acrylic denture tooth pontic. (2):113-117
Resin-retained bridges: The porcelain-fused-to-metal "winged" pontic. (3):203-208
Hinkelman, KW; Zakariasen, KL;

Scott, DA: Using a dentin-bonding agent to isolate damaged teeth. (4):324-325
Hirsch, SM see **Barouch, E**
Howard, WW: Clinical judgment: Amalgam vs composites (Editorial). (4):288
Fragmentation within the profession: Time to talk it out (Editorial). (3):174
Keeping the "care" in dental care (Editorial). (1):4
Referrals: Don't wait to communicate (Editorial). (6):475
Second opinions: Help or hindrance? (Editorial). (5):364
Weeds in our professional garden (Editorial). (2):84
Johnson, SD; Spagnolo, M; Mills, LF: The value of full-mouth radiographs in adults. (6):501
Johnson, WT; Leary, JM: Vertical root fractures: Diagnosis and treatment. (5):425-429
Johnson, WW see **Schulein, TM**
Judah, DE; Bach, DE: Buccal fat pad herniation in an infant. (4):300-301
Kaim, J see **Barouch, E**
Kaugars, CC see **Kaugers, GE**
Kaugars, GE; Harmon, FJ; Kaugars, CC: A comparison of D- and E-speed intraoral film. (4):316-317
Kent, K see **LePine, E**
Keyes, PH see **Rams, TE**
Keyes, PH: Keyes technique (Letter). (5):368,370
Klooster, J: Dentistry's literary tradition: Information-age ally. (6):518-520
Kramer, GE: Third-party payments (Letter). (5):371
Kraut, RA: Coronoidalgia: Report of two cases. (5):443-445
Preprosthetic orthognathic surgery. (3):250-254
Kress, GC see **Bebeau, MJ**
Larsen, HD; McDonald, GT: Use of hydroxylapatite to correct maxillary, anterior hypermobile ridge tissue. (3):237-240
Larsen, HD see **McDonald, GT**
Leary, JM see **Johnson, WT**
LePine, E; Kent, K; Samit, A: Site-dependent manifestations of head and neck cancers. (5):446-448
Lewis, AL see **Pollack, BF**
Lewis, JE see **Bates, RE Jr**
Lieb, MM: Orthodontists and GPs (Letter). (5):371
Lorton, L see **Grover, PS**
Lu, DP: Differential diagnosis and treatment of common intraoral lesions. (5):411-421
Lubow, RM see **Cooley, RL**
Lyon, HE: A conservative technique for long-term splinting. (6):511-514
Mader, CL: Concrescence of teeth: A potential treatment hazard. (1):52-55
Marcoot, RM see **Toupal, RL**
Maryniuk, GA: Custom shade-tab fabrication with visible-light cured resins. (5):449
McDermott, I see **Samant, A**
McDonald, GT; Larsen, HD: The neutral zone space: A clue to denture stability. (6):510-514
McDonald, GT see **Larsen, HD**
Meister, F see **Sampson, E**
Michnick, BT; Sherman, J: Liquid microfills: A solution to Class IV problems. (6):504-505
Miller, AS; Pullon, PA: Lesion on the skin. (5):451,455
Lump on the tongue. (6):521,526.
Nodules of skin. (4):292, 296
Nodule on the tongue. (1):8,12
Nodule on the tongue. (3):184,188
Purplish mass on the gingiva. (2):92,94
Miller, AS see **Pullon, PA**
Miller, CS; Foulke, CN: Use of lysine in treating recurrent oral herpes simplex infections. (6):490-493
Mills, LF see **Johnson, SD**
Moline, DG: Using a complete denture for extrusion. (3):247-249
Moloff, RL; Stein, SD: Maintenance of a maxillary central incisor. (4):330-333
Monetti, L: Simplified shade selection with custom shade guides. (5):422-423
Morley, KR: Treating children (Letter). (3):182
Muron, D see **Svirsky, J**
Murray, GA; Yates, JL: Evaluation of the early strengths of seven amalgam alloys. (6):515-517
Newman, JG: Annual index (Letter). (6):479
O'Hara, JW Jr; Galvin, WC: Benign mucosal pemphigold: Report of a case. (2):122-123
Parel, S see **Drago, CJ**
Parker, MW; Pelleu, GB Jr; Blank, LW; Breton, RW: Muscle strength related to use of interocclusal splints. (2):105-109
Pelleu, GB see **Parker, MW**
Phillips, RW see **Crim, GA**
Plack, WF III: Fibrin-clot stabilization of the free gingival graft. (1):61-64
Plack, WF III; Vire, DE: Retrieval of endodontic silver points. (2):124-127
Pollack, BF; Blitzer, MH: Discoloration in composite and microfill resins. (2):130-133
Pollack, BF; Lewis, AL: Visible-light curing generators: An update. (3):193-197
Powers, HS Jr: A matter of degrees—and titles (Letter). (3):182
Pullon, PA; Miller, AS: Ghostlike tooth. (6):524,526
Grooves on the tongue. (2):93-94
Pain in the mandible. (5):452,455
Severe bone loss. (1):10,12
Skin pigmentations. (4):293,296
Ulcers on the gingiva. (3):186,188
Pullon, PA see **Miller, AS**
Rams, TE; Keyes, PH: Modifying oral irrigation devices for subgingival periodontal chemotherapy. (4):302-305
Reinhardt, JW see **Schulein, TM**
Renner, RP see **Schlussel, ED**
Reyes-Guerra, A: Regulating use of IV sedation (Letter). (3):180
Rosenstein, DI see **Chiodo, GT**
Rosenthal, AB see **Taintor, JF**
Sadowsky, D see **Hellerman, MB**
Samant, A; McDermott, I; Cinotti, WR: Delivering complete dentures: Preventing problems after insertion. (3):229-231
Samit, A see **LePine, E**
Sampson, E; Meister, F: Dental complications in the end stage of renal disease. (4):297-299
Schlussel, ED; Renner, RP: Overdenture treatment with the O-SO attachment. (1):34-38
Schubot, DB see **Clark, CA**
Schulein, TM; Reinhardt, JW; Johnson, WW: Detection of interproximal caries by transillumination. (5):430-432
Scott, A see **Hinkelman, KW**
Segal, H: Duration and type of pain of emergency patients. (6):507-509
Sheehan, DV see **Weiner, AA**
Sherman, J see **Michnick, BT**
Shugars, DA; Williams, D; Cline, SJ; Fishburne, C Jr: Musculoskeletal back pain among dentists. (6):482-485
Simring, M see **Collins, JF**
Slome, BA: Rampant caries: A side effect of tricyclic antidepressant therapy. (6):494-496
Spagnolo, M see **Johnson, SD**
Stanley, H see **Collins, JF**
Starr, RM: Computers: An indispensable tool for the dental office. (2):110-112.
Stein, SD see **Moloff, RL**
Svirsky, J; Burns, J; Muron, D: Polypharmacologic xerostomia. (6):502-503

Swartz, ML see **Crim, GA**
Synnott, SA: Resin-bonded bridges: An update. (3):211-215
Taintor, JF; Biesterfeld, RC; Taintor, MJ; Rosenthal, AB: The future of dental education: Can we afford apathy? (4):318-323
Taintor, MJ see **Taintor, JF**
Tal, H: Differentiating between primary periodontal and endodontic lesions. (5):433-435
Thompson, ER: Licensure exam (Letter). (1):6
Tjan, AHL: Crown cementation with an internal escape channel. (1):47-50
Toupal, RL; Marcoot, RM: Use of bupivacaine in general dentistry. (5):436-437
Vernino, D see **Dodd, CS**
Vire, DE see **Plack, WF III**
Vogel, SJ: GP, orthodontic cooperation (Letter). (4):290-291
Weiner, AA; Sheehan, DV: Differentiating panic disorders from dental anxiety. (3):242-245
Williams, D see **Shugars, DA**
Yates, JL see **Murray, GA**
Zakariasen, KL see **Hinkelman, KW**

SUBJECT INDEX

Note: Numerals in parentheses refer to issue numbers; numerals following a colon refer to page numbers.

A

Academy of General Dentistry, Annual Meeting
AGD honors researcher and pioneer (RE Jordan and FB Wiebusch). (5):403
Annual meeting, 1984. (5):378-406
Clinicians share bounty of tips (Table Clinics). (5):397-399
Convo '84 'only the beginning' for record number of GPs. (5):402-403
Dental high-tech: The cutting edge (Exhibitors). (5):400-401
Dentistry's envoy to the world (Humanitarian Award to WS Frank). (5):382
A future of change, challenges (Keynote address). (5):383
Mapping routes through the maze of occlusion, orthodontics. (5):384-386
More for GPs in endodontics. (5):387-389
Outgoing president Patrick applauds AGD involvement. (5):380-381
Periodontics: A place for GPs in a changing field. (5):390-391
Pointers for better, safer care. (5):394-396
Practice management: Enhancing efficiency, quality. (5):392-393
Rogers accepts president's gavel. (5):381
Academy of General Dentistry, Directory of officers
1984-1985. (5):469-470
Academy of General Dentistry, Foundation
Foundation contributors' list. (1):14-16
Accident
Retrieval of endodontic silver points. Plack, WF, III. (2):124-127
Advertising
Fragmentation within the profession: Time to talk it out (Editorial). Howard, WW. (3):174
Orthodontics and GPs (Letter). Lieb, MM. (5):371
Periodontal ad campaign (Letter). Bhaskar, SN. (5):370
Aging
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104
Aloe vera
Tic douloureux: Report of successful treatment. Hayes, SM. (5):441-442
Amalgam
Amalgam vs. composites (Letter). Belian, AG. (6):478
—(Letter). Dodes, JE. (6):478
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
Evaluation of devices for storing amalgam scrap. Cooley, RL et al. (2):118-120.
Evaluation of the early strengths of seven amalgam alloys. Murray, GA et al. (6):515-517
Mercury vapor leakage from disposable capsules. Cooley, RL et al. (3):218-221
Amyloidosis
Nodule on the tongue. Miller, AS et al. (1):8
Andragogy
Andragogy: Taking an adult approach to continuing dental education. Barrett, ED. (2):134-136
Correction. (4):288
Anesthesia, local
Coronoidalgia: Report of two cases. Kraut, RA. (5):443-445
Use of bupivacaine in general dentistry. Toupal, RL et al. (5):436-437
Antidepressive agents
Rampant caries: A side effect of tricyclic antidepressant therapy. Slome, BA. (6):494-496
Anxiety
Differentiating panic disorders from dental anxiety. Weiner, AA et al. (3):242-245
Appetite
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104
Asepsis
Aseptic procedures for the dental office. Bebermeyer, RD. (4):312-315
Attachments, precision
Overdenture treatment with the O-SO attachment. Schlussel, ED et al. (1):34-38

B

Back pain
Musculoskeletal back pain among dentists. Shugars, DA et al. (6):481-485
Benign mucosal pemphigoid see **Pemphigoid, benign mucosal**
Bonding, dental
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
An evaluation of cavosurface design and microleakage. Crim, GA et al. (1):56-58
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Using a dentin bonding agent to isolate damaged teeth. Hinkelman, KW et al. (4):324-325
Bone disease
Severe bone loss. Pullon, PA et al. (1):10,12
Bruxism
Single-appointment occlusal splints. Bates, RE Jr et al. (1):44-46
Buccal fat pad
Buccal fat pad herniation in an infant. Judah, MW et al. (4):300-301
Bupivacaine
Use of bupivacaine in general dentistry. Toupal, RL et al. (5):436-437

C

Cancer
Lump on the tongue. Miller, AS et al. (6):521,526
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448
Cannula
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305
Carcinoma
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421
Lump on the tongue. Miller AS et al. (6):421,426

Caries, dental
Detection of interproximal caries by transillumination. Schulein, TM et al. (5):430-432
Liquid microfills: A solution to Class IV problems. Michnick, BT et al. (6):504-505
Patient-applied ZOE: A clinical test. Barouch, E et al. (2):128-129
Rampant caries: A side effect of tricyclic antidepressant therapy. Slome, BA. (6):494-496
Cementation
Cement escapeways (Letter). Eames, WB. (3):180-182
Crown cementation with an internal escape channel. Tjan, AHL. (1):47-50
Chemotherapy
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305
Cleft palate
Overdenture treatment of an adult cleft-palate patient. Drago, CJ et al. (5):438-440
Color matching
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Composite resin
see **Resins, dental**
Computers
Computers: An indispensable tool for the dental office. Starr, RM. (2):110-112
Concrescence
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55
Consultation
see **Referral and consultation**
Continuing education
see **Education, continuing**
Crowns
Alterations in tooth preparations for surveyed crowns. Gardner, FM. (6):498-500
Cement escapeways (Letter). Eames, WB. (3):180-182
Crown cementation with an internal escape channel. Tjan, AHL. (1):47-50
Forensic value of artificially defaced crowns. Grover, PS et al. (4):306-307
Maintenance of a maxillary central incisor. Moloff, RL et al. (4):330-333
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Cutaneous horn
Lesion on the skin. Miller, AS et al. (5):451,455
Cysts
Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497

D

Dental anesthesia, technique
The periodontal ligament injection technique. deShazer, DO et al. (4):308-310
Use of bupivacaine in general dentistry. Toupal, RL et al. (5):436-437
Dental care delivery
The future of dental education: Can we afford apathy? Taintor, JF et al. (4):318-323
Keeping the "care" in dental care (Editorial). Howard, WW. (1):4
Return dental care to dentists (Letter). Bander, TS. (2):88,90
Dental education
Dentistry's literary tradition: Information-age ally. Klooster, J. (6):518-520
Dental emergency
Duration and type of pain of emergency patients. Segal, H. (6):507-509
Dental health education
Periodontal ad campaign (Letter). Bhaskar, SN. (5):370
Dental history
Dentistry's literary tradition: Information-age ally. Klooster, J. (6):518-520
Dental ligament
see **Periodontal ligament**
Dental materials
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Discoloration in composite and microfill resins. Pollack, BF et al. (2):130-133
An evaluation of cavosurface design and microleakage. Crim, GA et al. (1):56-58
Evaluation of the early strengths of seven amalgam alloys. Murray, GA et al. (6):515-517
Liquid microfills: A solution to Class IV problems. Michnick, BT et al. (6):504-505
Patient-applied ZOE: A clinical test. Barouch, E et al. (2):128-129
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Dental offices
Evaluation of devices for storing amalgam scrap. Cooley, RL et al. (2):118-120
Mercury vapor leakage from disposable capsules. Cooley, RL et al. (3):218-221
Dental practice
Aseptic procedures for the dental office. Bebermeyer, RD. (4):312-315
Dentistry's future: Broadening our focus to meet the research challenge. Hein, JW. (1):23-25
The future of dental education: Can we afford apathy? Taintor, JF et al. (4):318-323
Selecting a practice location: A study of recent graduates. Clark, CA et al. (1):26-30
Dental prosthetics
Fixed prosthodontics (Self-assessment exam). (2):137-142
Overdenture treatment with the O-SO attachment. Schlussel, ED et al. (1):34-38
Dental research
Dentistry's future: Broadening our focus to meet the research challenge. Hein, JW. (1):23-25
The future of dental education: Can we afford apathy? Taintor, JF et al. (4):318-323
Dental resin
see **Resins, dental**
Dental restoration
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
Liquid microfills: A solution to Class IV problems. Michnick, BT et al. (6):504-505
Overdenture treatment with the O-SO attachment. Schlussel, ED et al. (1):34-38
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Using a dentin bonding agent to isolate damaged teeth. Hinkelman, KW et al. (4):324-325
Dental technology
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Dentin
Reducing dentinal hypersensitivity

with strontium chloride and potassium nitrate. Collins, JF et al. (1):40-43
Dentin bonding
see **Bonding, dental**
Denture, bonded
Fixed prosthodontics (Self-assessment exam). (2):137-142
Resin-bonded bridges: An update. Synnott, SA. (3):211-215
Resin-retained bridges: The acrylic denture tooth pontic. Heymann, HO. (2):113-117
Resin-retained bridges: The porcelain-fused-to-metal "winged" pontic. Heymann, HO. (3):203-208
Denture, complete
Delivering complete dentures: Preventing problems after insertion. Samant, A. et al. (3):229-231
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104
The neutral zone space: A clue to denture stability. McDonald, GT et al. (6):510-511
Use of hydroxylapatite to correct maxillary, anterior hypermobile ridge tissue. Larsen, HD et al. (3):237-240
Using a complete denture for extrusion. Molina, DG. (3):247-249
Denture, fixed partial
Crown cementation with an internal escape channel. Tjan, AHL. (1):47-50
Fixed prosthodontics (Self-assessment exam). (2):137-142
Resin-bonded bridges: An update. Synnott, SA. (3):211-215
Resin-retained bridges: The acrylic denture tooth pontic. Heymann, HO. (2):113-117
Resin-retained bridges: The porcelain-fused-to-metal "winged" pontic. Heymann, HO. (3):203-208
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Denture, fixed temporary
Fixed prosthodontics (Self-assessment exam). (2):137-142
Resin-retained bridges: The acrylic denture tooth pontic. Heymann, HO. (2):113-117
Denture, precision
Overdenture treatment with the O-SO attachment. Schlussel, ED et al. (1):34-38
Denture, removable partial
Alterations in tooth preparations for surveyed crowns. Gardner, FM. (6):498-500
Overdenture treatment of an adult cleft-palate patient. Drago, CJ et al. (5):438-440
Relining distal extension partial dentures. Bolouri, A. (4):334-336
Denture relining
Relining distal extension partial dentures. Bolouri, A. (4):334-336
Denture teeth
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Desiccation
Tissue desiccation and oral microlesions. Atkinson, WB et al. (3):190-191
Diagnosis
Benign mucosal pemphigoid: Report of a case. O'Hara, JW Jr et al. (2):122-123
Coronoidalgia: Report of two cases. Kraut, RA. (5):443-445
Detection of interproximal caries by transillumination. Schulein, TM et al. (5):430-432
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):433-435
Ghostlike tooth. Pullon, PA et al. (6):524,526
Grooves on the tongue. Pullon, PA et al. (2):93-94
Impaction of first molars: Two case reports. Grover, PS et al. (1):32-33
Lesion on the skin. Miller, AS et al. (5):451,455
Lump on the tongue. Miller, AS et al. (6):521,526
Nodule on the skin. Miller, AS et al. (4):292,296
Nodule on the tongue. Miller, AS et al. (1):8,12
Nodule on the tongue. Miller, AS et al. (3):184,188
Pain in the mandible. Pullon, PA et al. (5):452,455
Physical assessment of the elderly patient. Bomberg TJ et al. (3):198-200
Purplish mass on the gingiva. Miller AS et al. (2):92,94
Severe bone loss. Pullon PA et al. (1):10,12
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448
Skin pigmentations. Pullon, PA et al. (4):293,296
Ulcers on the gingiva. Pullon, PA et al. (3):186,188
The value of full-mouth radiographs in adults. Johnson, SD et al. (6):501
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Dialysis
see **Hemodialysis**

E

Education, continuing
Adult approach to CDE (Letter). Cresswell, JJ. (4):290
Andragogy: Taking an adult approach to continuing education. Barrett, ED. (2):134-136
Selecting continuing education courses: A checklist. Bebeau, MJ et al. (2):97-102
Education, dental
Adult approach to CDE (Letter). Cresswell, JJ. (4):290
The future of dental education: Can we afford apathy? Taintor, JF et al. (4):318-323
Education, graduate
Regulating use of IV sedation (Letter). Reyes-Guerra, A. (3):180
Emergency, dental
Patient-applied ZOE: A clinical test. Barouch, E et al. (2):128-129
Emergency, medical
Medical emergencies (Self-assessment exam). (1):64-72
Endodontics
Differentiating between primary periodontal and endodontic lesions. Tal, H. (5):433-435
Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Endodontics, instrumentation
Retrieval of endodontic silver points. Plack, WF, III. (2):124-127
Epidemiology
The incidence of supernumerary teeth. Grover, PS et al. (3):224-227
Erosion, tooth
Dental complications in the end stage of renal disease. Sampson, E et al. (4):297-299
Etching, electrolytic
Resin-bonded bridges: An update. Synnott, SA. (3):211-215
Ethics
Keeping the "care" in dental care (Editorial). Howard, WW. (1):4
Weeds in our professional garden (Editorial). Howard, WW. (2):84
Examination, oral

Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448

F

Fiberoptics
Detection of interproximal caries by transillumination. Schulein, TM et al. (5):425-429
Visible-light curing generators: An update. Pollack, BF et al. (3):193-197
Fibrin
Fibrin-clot stabilization of the free gingival graft. Plack, WF III. (1):61-64
Films, intraoral
A comparison of D- and E-speed intraoral films. Kaugers, GE et al. (4):316-317
Forensic dentistry
Forensic value of artificially defaced crowns. Grover, PS et al. (4):306-307
Fractures
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55

G

General Dentistry
Annual Index (Letter). (6):479
Geriatric dentistry
Consultation between dentists and physicians. Chiodo, GT et al. (1):19-22
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104
Physical assessment of the elderly patient. Bomberg, TJ et al. (3):198-200
Gingivitis, desquamative
Ulcers on the gingiva. Pullon, PA et al. (3):186,188
Gingivosis
see **Gingivitis, desquamative**
Glomerulonephritis
Dental complications in the end stage of renal disease. Sampson, E et al. (4):297-299
Glossitis
Grooves on the tongue. Pullon, PA et al. (2):93-94
Granuloma, giant cell
Purplish mass on the gingiva. Miller, AS et al. (2):92,94
Growth and development, facial
Facial growth and development (Self-assessment exam). (6):529-531

H

Handicapped, dentistry for the
Consultation between dentists and physicians. Chiodo, GT et al. (1):19-22
Hemangioma, cavernous
Capillary hemangioma: Report of a case. Hellerman, MB et al. (4):327-328
Hemodialysis
Dental complications in the end stage of renal disease. Sampson, E et al. (4):297-299
Herniation
Buccal fat pad herniation in an infant. Judah, MW et al. (4):300-301
Herpes
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421
Use of lysine in treating recurrent oral herpes simplex infections. Miller, CS et al. (6):490-493
Hospital dentistry
Treating children (Letter). Morley, KR. (3):182
Hydroxylapatite
Use of hydroxylapatite to correct maxillary, anterior hypermobile ridge tissue. Larsen, HD et al. (3):237-240
Hyperparathyroidism
Pain in the mandible. Pullon, PA et al. (5):452,455
Hypersensitivity
Reducing dentinal hypersensitivity with strontium chloride and potassium nitrate. Collins, JF et al. (1):40-43
Hypnosis
Treating children (Letter). Morley, KR. (3):182

I

Iatrogenic disease
Polypharmacologic xerostomia. Svirsky et al. (6):502-503
Identification
Forensic value of artificially defaced crowns. Grover, PS et al. (4):306-307
Incisor
Overdenture treatment with the O-SO attachment. Schussel, ED et al. (1):34-38
Incisor, maxillary
Maintenance of a maxillary central incisor. Moloff, RL et al. (4):330-333
Infection control
Aseptic procedures for the dental office. Bebermeyer, RD. (4):312-315
Information
Dentistry's literary tradition: Information-age ally. Klooster, J. (6):518-520
Injuries, iatrogenic
Visible-light curing generators: An update. Pollack, BF et al. (3):193-197
Insurance
Return dental care to dentists (Letter). Bander, TS. (2):88,90
Third-party payments (Letter). Kramer, GE. (5):371
Interocclusal splints
Muscle strength related to use of interocclusal splints. Parker, MW et al. (2):105-109
Irrigation, oral
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305

K

Keloids
Nodules of skin. Miller, AS et al. (4):292,296
Keratosis, seborrheic
Skin pigmentations. Pullon, PA et al. (4):293,296
Keyes technique
The Keyes technique: A perspective. Greenstein, G. (3):232-234
Keyes technique (Letter). Keyes, PH. (5):368,370
Kidney disease
Dental complications in the end stage of renal disease. Sampson, E et al. (4):297-299

L

Lesion, dermal
Lesion on the skin. Miller, AS et al. (5):451,455
Lesion, oral
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421
Differentiating between primary periodontal and endodontic lesions. Tal, H. (5):433-435
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448
Lesion, vascular
Capillary hemangioma: Report of a case. Hellerman, MB et al. (4):327-328
Licensure
Licensure exams (Letter). Gjebre, K. (1):6
—(Letter). Thompson, ER. (1):6
Regulating use of IV sedation (Letter). Reyes-Guerra, A. (3):180
Light
Visible-light curing generators: An update. Pollack, BF et al. (3):193-197
Lysine
Use of lysine in treating recurrent oral herpes simplex infections. Miller, CS et al. (6):490-493

M

Maxilla
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55
Maxilla, reconstruction
Use of hydroxylapatite to correct maxillary, anterior hypermobile ridge tissue. Larsen, HD et al. (3):237-240
Mercury
Evaluation of devices for storing amalgam scrap. Cooley, RL et al. (2):118-120
Mercury vapor leakage from disposable capsules. Cooley, RL et al. (3):218-221
Mesiodens
The incidence of supernumerary teeth. Grover, PS et al. (3):224-227
Microfill resin
see **Resins, dental**
Microscopy, instrumentation
The Keyes technique: A perspective. Greenstein, G. (3):232-234
Keyes technique (Letter). Keyes, PW. (5):368,370
Molar
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55
Mucocele
Nodule on the tongue. Miller, AS et al. (3):184,188
Mucosa
Tissue desiccation and oral microlesions. Atkinson, WB et al. (3):190-191
Muscles
Muscle strength related to use of interocclusal splints. Parker, MW et al. (2):105-109

N

Needle
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305
Neoplasms
see also **Specific neoplasms**
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448
Nodules
Nodules of skin. Miller, AS et al. (4):292,296
Nutrition
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104

O

Occlusion
Crown cementation with an internal escape channel. Tjan, AHL. (1):47-50
Muscle strength related to use of interocclusal splints. Parker, MW et al. (2):105-109 Single-appointment occlusal splints. Bates, RE Jr et al. (1):44-46
Use of hydroxylapatite to correct maxillary anterior hypermobile ridge tissue. Larsen, HD et al. (3):237-240
Occupational hazards
Musculoskeletal back pain among dentists. Shugars, DA et al. (6):481-485
Odontodysplasia
Ghostlike tooth. Pullon, PA et al. (6):524,526
Operative dentistry
Alterations in tooth preparations for surveyed crowns. Gardner, FM. (6):498-500
Detection of interproximal caries by transillumination. Schulein, TM et al. (5):425-429
Liquid microfills: A solution to Class IV problems. Michnick, BT et al. (6):504-505
Oral diseases
Benign mucosal pemphigoid: Report of a case. O'Hara, JW Jr et al. (2):122-123
Nodule on the tongue. Miller, AS et al. (1):8,12
Nodule on the tongue. Miller, AS et al. (3):184,188
Severe bone loss. Pullon, PA et al. (1):10,12
Oral irrigation
see **Irrigation, oral**
Oral surgery
Buccal fat pad herniation in an infant. Judah, MW et al. (4):300-301
Coronoidalgia: Report of two cases. Kraut, RA. (5):443-445
Orthodontics
Facial growth and development (Self-assessment exam). (6):529-531
Fragmentation within the profession: Time to talk it out (Editorial). Howard, WW. (3):174
GP, orthodontic cooperation (Letter). Vogel, SJ. (4):291
GPs and orthodontics (Letter). Carey, J. (6):479
Keeping quality in orthodontics (Letter). Berkowitz, S. (2):86
Orthodontists and GPs (Letter). Lieb, MM. (5):371
Preprosthetic orthognathic surgery. Kraut, RA. (3):250-252
Using a complete denture for extrusion. Molina, DG. (3):247-249
Overdenture
Overdenture treatment of an adult cleft-palate patient. Drago, CJ et al. (5):438-440

P

Pain
Coronoidalgia: Report of two cases. Kraut, RA. (5):443-445
Duration and type of pain of emergency patients. Segal, H. (6):508-509
Musculoskeletal back pain among dentists. Shugars, DA et al. (6):481-485
Pain in the mandible. Pullon, PA et al. (5):452,455
Site-dependent manifestations of head and neck cancers. LePine, E et al. (5):446-448
Tic douloureux: Report of successful treatment. Hayes, SM. (5):441-442
Use of bupivacaine in general dentistry. Toupal, RL et al. (5):436-437
Pain control
Regulating use of IV sedation (Letter). Reyes-Guerra, A. (3):180
Panic disorders
Differentiating panic disorders from dental anxiety. Weiner, AA et al. (3):242-245
Pathology, oral
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421
Differentiating between primary periodontal and endodontic lesions. Tal, H. (5):433-435
Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497
Patient care
Fragmentation within the profession: Time to talk it out (Editorial). Howard, WW. (3):174
Keyes technique (Letter). Keyes, PH. (5):368,370
The Keyes technique: A perspective. Greenstein, G. (3):232-234
Orthodontists and GPs (Letter). Lieb, MM. (5):371
Physical assessment of the elderly patient. Bomberg, TJ et al. (3):198-200
Polypharmacologic xerostomia. Svirsky, J et al. (6):502-503
Rampant caries: A side effect of tricyclic antidepressant therapy. Slome, BA. (6):502-503
Patient management
Delivering complete dentures: Preventing problems after insertion. Samant, A et al. (3):229-231
Differentiating panic disorders from dental anxiety. Weiner, AA et al. (3):242-245
Second opinions: Help or hindrance? (Editorial). (5):364

Use of bupivacaine in general dentistry. Toupal, RL et al. (5):436-437
The value of full-mouth radiographs in adults. Johnson, SD et al. (6):501
Pedodontics
Treating children (Letter). Morley, KR. (3):182
Pemphigoid, benign mucosal
Benign mucosal pemphigoid: Report of a case. O'Hara, JW Jr et al. (2):122-123
Periodontal ligament
The periodontal ligament injection technique. deShazer, DO et al. (4):308-310
Periodontal pockets
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305
Periodontal prosthetics
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-489
Periodontal surgery
Fibrin-clot stabilization of the free gingival graft. Plack, WF III. (1):61-64
Periodontal therapy
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Keyes technique (Letter). Keyes, PH. (5):368,370
The Keyes technique: A perspective. Greenstein, G. (3):232-234
Modifying oral irrigation devices for subgingival periodontal chemotherapy. Rams, TE et al. (4):302-305
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Referrals: Don't wait to communicate (Editorial). (6):475
Periodontics
Differentiating between primary periodontal and endodontic lesions. (5):433-435
Periodontal ad campaign (Letter). Bhaskar, SN. (5):370
Periodontitis
Fibrin-clot stabilization of the free gingival graft. Plack, WF III. (1):61-64
Severe bone loss. Pullon, PA et al. (1):10,12
Pigmentation
Skin pigmentations. Pullon, PA et al. (4):293,296
Pins, dental
Maintenance of a maxillary central incisor. Moloff, RL et al. (4):330-333
Polypharmacy
Polypharmacologic xerostomia. Svirsky, J et al. (6):502-503
Pontic, porcelain-fused-to-metal
Resin-retained bridges: The acrylic denture tooth pontic. Heymann, HO. (2):113-117
Resin-retained bridges: The porcelain-fused-to-metal "winged" pontic. Heymann, HO. (3):203-208
Posture
Musculoskeletal back pain among dentists. Shugars, DA et al. (6):481-485
Potassium nitrate
Reducing dentinal hypersensitivity with strontium chloride and potassium nitrate. Collins, JF et al. (1):40-43
Practice management
Aseptic procedures for the dental office. Bebermeyer, RD. (4):312-315
Computers: An indispensable tool for the dental office. Starr, RM. (2):110-112
Selecting a practice location: A study of recent graduates. Clark, CA et al. (1):26-30
Professional issues
Fragmentation within the profession: Time to talk it out (Editorial). Howard, WW. (3):174
GPs and orthodontics (Letter). Carey, J. (6):479
Orthodontists and GPs (Letter). Lieb, MM. (5):371
Referrals: Don't wait to communicate (Editorial). (6):475
Second opinions: Help or hindrance? (Editorial). (5):364
Third-party payments (Letter). Kramer, GE. (5):371
Professional-patient relations
Keeping the "care" in dental care (Editorial). Howard, WW. (1):4
Professional relations
Consultation between dentists and physicians. Chiodo, GT et al. (1):19-22
GP, orthodontic cooperation (Letter). Vogel, SJ. (4):291
GPs and orthodontics (Letter). Carey, J. (6):479
Orthodontists and GPs (Letter). Lieb, MM. (5):371
Referrals: Don't wait to communicate (Editorial). (6):475
Second opinions: Help or hindrance? (Editorial). (5):364
Prosthodontics
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Fixed prosthodontics (Self-assessment exam). (2):137-142
The neutral zone space: A clue to denture stability. McDonald, GT et al. (6):510-511
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Preprosthetic orthognathic surgery. Kraut, RA. (3):250-254
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Pseudolipoma
Buccal fat pad herniation in an infant. Judah, MW et al. (4):300-301

R

Radiographic survey
The incidence of supernumerary teeth. Grover, PS et al. (3):224-227
Radiography, dental
A comparison of D- and E-speed intraoral films. Kaugers, GE et al. (4):316-317
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55
Coronoidalgia: Report of two cases. Kraut, RA. (5):443-445
Impaction of first molars: Two case reports. Grover, PS et al. (1):32-33
Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497
Third-party payments (Letter). Kramer, GE. (5):371
The value of full-mouth radiographs in adults. Johnson, SD et al. (6):501
Referral and consultation
Consultation between dentists and physicians. Chiodo, GT et al. (1):19-22
Resins, dental
Amalgams vs. composites (Letter). Belian, AG. (6):478-479
—(Letter). Dodes, JE. (6):478
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Discoloration in composite and microfill resins. Pollack, BF et al. (2):130-133
An evaluation of cavosurface design and microleakage. Crim, GA et al. (1):56-58
Liquid microfills: A solution to Class IV problems. Michnick, BT et al. (6):504-505
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Resin-bonded bridges: An update.

Synnott, SA. (3):211-215
Resin-retained bridges: The porcelain-fused-to-metal "winged" pontic. Heymann, HO. (3):203-208
Shade-tab fabrication with visible-light cured resins. Maryniuk, GA. (5):449
Simplified shade selection with custom shade guides. Monetti, L. (5):422-423
Using a dentin bonding agent to isolate damaged teeth. Hinkelman, KW et al. (4):324-325
Visible-light curing generators: An update. Pollack, BF et al. (3):193-197
Ridge augmentation
Use of hydroxylapatite to correct maxillary, anterior hypermobile ridge tissue. Larsen, HD et al. (3):237-240
Root fracture
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Rubber dam
Tissue desiccation and oral microlesions. Atkinson, WB et al. (3):190-191

S

Sedation
Regulating use of IV sedation (Letter). Reyes-Guerra, A. (3):180
Treating children (Letter). Morley, KR. (3):182
Self-assessment exam
Electrosurgery. (4):337-341
Facial growth and development. (6):529-531
Fixed prosthodontics. (2):137-142
Medical emergencies. (1):67-72
Self-care
Patient-applied ZOE: A clinical test. Barouch, E et al. (2):128-129
Side effects
Polypharmacologic xerostomia. Svirsky, J et al. (6):502-503
Rampant caries: A side effect of tricyclic antidepressant therapy. Slome, BA. (6):494-496
Silver points
Retrieval of endodontic silver points. Plack, WF, III. (2):124-127
Specialization
Fragmentation within the profession: Time to talk it out (Editorial). Howard, WW. (3):174
GPs and orthodontics (Letter). Carey, J. (6):479
Orthodontists and GPs (Letter). Lieb, MM. (5):371
Splints
see also **Interocclusal splints, Periodontal prosthetics**
A conservative technique for long-term splinting. Lyon, HE. (6):512-514
Muscle strength related to use of interocclusal splints. Parker, MW et al. (2):105-109
Periodontal splinting: Two conservative procedures. Buchanan, WT. (6):486-488
Single-appointment occlusal splints. Bates, RE Jr et al. (1):44-46
Strontium chloride
Reducing dentinal hypersensitivity with strontium chloride and potassium nitrate. Collins, JF et al. (1):40-43
Surgery, orthognathic
Preprosthetic orthognathic surgery. Kraut, RA. (3):250-254
Surgical flaps
Fibrin-clot stabilization of the free gingival graft. Plack, WF III. (1):61-64

T

Taste
Geriatric nutrition for edentulous and dentulous patients. Dodd, CS et al. (2):103-104
Teaching
Selecting continuing education courses: A checklist. Bebeau, MJ et al. (2):97-102
Tests, diagnostic
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421
Tic douloureux
Tic douloureux: Report of successful treatment. Hayes, SM (5):441-442
Tissue desiccation
Tissue desiccation and oral microlesions. Atkinson, WB et al. (3):190-191
Tongue, fissured
Grooves on the tongue. Pullon, PA et al. (2):93-94
Tooth cavity preparation
An evaluation of cavosurface design and microleakage. Crim, GA et al. (1):56-58
Tooth extractions
Concrescence of teeth: A potential treatment hazard. Mader, CL. (1):52-55
Tooth fracture
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Tooth, impacted
Impaction of first molars: Two case reports. Grover, PS et al. (1):32-33
Tooth injury
Using a dentin bonding agent to isolate damaged teeth. Hinkelman, KW et al. (4):324-325
Vertical root fractures: Diagnosis and treatment. Johnson, WT et al. (5):425-429
Tooth movement, minor
Using a complete denture for extrusion. Molina, DG. (3):247-249
Tooth pulp
Periapical pathology mimicking a dentigerous cyst. Brooks, J. (6):497
Tooth restoration
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
Crown cementation with an internal escape channel. Tjan, AHL. (1):47-50
Discoloration in composite and microfill resins. Pollack, BF et al. (2):130-133
Maintenance of a maxillary central incisor. Moloff, RL et al. (4):330-333
Using a dentin bonding agent to isolate damaged teeth. Hinkelman, KW et al. (4):324-325
Tooth root
Overdenture treatment with the O-SO attachment. Schlussel, ED et al. (1):34-38
Tooth, supernumerary
The incidence of supernumerary teeth. Grover, PS et al. (3):224-227
Toxicity
Clinical judgment: Amalgams vs. composites (Editorial). Howard, WW. (4):288
Transillumination
Detection of interproximal caries by transillumination. Schulein, TM et al. (5):430-432
Transplants, renal
Dental complications in the end stage of renal disease. Sampson, E et al. (4):297-299
Treatment planning
Second opinions: Help or hindrance? (Editorial). (5):364

V

Venereal disease
Differential diagnosis and treatment of common intraoral lesions. Lu, DP. (5):411-421

X

Xerostomia
Polypharmacologic xerostomia. Svirsky J et al. (6):502-503
Rampant caries: A side effect of tricyclic antidepressant therapy. Slome, BA. (6):494-496

Z

Zinc oxide-eugenol
Patient-applied ZOE: A clinical test. Barouch, E et al. (2):128-129
